Term 1 Indigo Sec 4 Express Math Welcome Letter

Dear Parents and Students,

Welcome to a brand-new term at Indigo. We're excited to partner you in Sec 4 Express Math this year and to help you turn effort into real, measurable progress. This letter gives you a clear overview of what to expect in Term 1, the support available, and the important dates and links you'll need. Please keep this letter handy as a guide for Term 1.

Make the most of your Math Express lessons

Sec 4 is the final stretch before the O-Levels. The focus shifts from learning new content to consolidating understanding, sharpening exam skills, and developing mastery. With consistent habits and clear strategies, students can significantly strengthen their performance.

1. Complete All Questions in Your Notes

S4 materials are curated to guide students from basic understanding to full mastery of each topic. Some questions are intentionally set for independent practice, and students should complete all of them. Using the worked solutions on the Indigo LMS helps reinforce understanding and prevents misconceptions from building up.

2. Understand the Key Shifts in S4 Mathematics

S4 is about refining skills, not rushing through new content. Students should focus on:

- **Mastery over new learning** — deepen accuracy and confidence in core topics.

- **Strong exam habits**, including:
  – Effective time management and knowing when to move on
  – Recognising common question types and structures
  – Interpreting modelling and real-world problems
  – Writing clear, logical working to earn method marks

  These habits directly impact O-Level performance.

3. Practise Consistently — The Most Important Factor for Success

Regular practice builds speed, accuracy, and confidence. It helps students:

- Recognise question patterns
- Avoid common errors
- Apply methods under time pressure
- Stay prepared for O-Level expectations

  Consistent, targeted practice leads to steady improvement and exam readiness.

4. Stay Resilient — Sec 4 Math Is Challenging but Manageable

It is normal to feel stressed or overwhelmed at times. Progress comes from steady, intentional effort. Students should:

- Address difficult topics early
- Collaborate with classmates
- Ask questions quickly when unsure
- Review mistakes and learn from them
- Revise consistently rather than cramming

Mathematics is a trainable skill, and persistence throughout the year leads to strong O-Level results.

With consistent practice, strong exam habits, and a resilient mindset, every Sec 4 student can finish the year confident and ready for success.

Key points to note

Indigo Mobile Phone Policy

- No using of mobile phones unless the tutor has asked you to do so. All mobile phones must be in students' bags at all times. The tutor has the right to confiscate the phones if they are used without permission.

Online Options during the March, June, and September Holidays

- We understand that many of you will have holiday plans yet still want to keep up with the demands of the Secondary syllabus. To support you, we've arranged live online lessons during the holidays so you can stay on track, revise consistently, and continue attending class without disruption, wherever you are. Details will be shared via community chats and LMS nearing the holidays.
